Design&Print 2 App

Work with Android™*, Apple® iOS®* devices and Design&Print 2 app which allows customisation, selection of fonts and designs.

This app allows print preview of the actual text, design and background colours before print.

*Operating systems: Android™ and Apple® iOS®

Expand creativity with a great variety of tapes

With a variety of different tapes to choose from, the possibilities are endless. Create stylish ribbon, decorative and TZe laminated tapes that will add an extra flair to home or office.

Ribbon Tape Range

Select from four choices of premium quality beautiful satin ribbons. The gold letters on the ribbons can be printed using the direct thermal heat transfer technology that do not fade off.

Decorative Pattern Tape Range

Add a personal touch with the durable and unique pattern tapes. With four options to choose from, gifts will certainly stand out from the rest.

TZe Tape Range

Brother's TZe laminated tapes consist of six layers of materials, resulting in a thin yet extremely strong label.

The direct thermal transfer ink is sandwiched between two protective layers of PET (polyester film) which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight.

As the labels are tested to the extreme, labels are professional and of high quality that are designed to last.

PT-P300BT

Clearly identify items with durable TZe laminated labels. Around the home, offices, schools, shops and any other places of work, there are many uses for the long lasting and durable TZe laminated labels, ribbons and decorative labels.
