

Rechargeable Label Printer for Desktop and Mobile Devices

PT-P910BT Cube Pro Label Printer

PT-P910BT Cube ProLabel Printer

Compact Label Printer with USB recharging and Bluetooth® wireless connection

Brother's P-touch Cube Pro label printer provides the flexibility to print labels up to 36mm in width on PC or macOS® or from a Smartphone or tablet using the free desktop label editing software and mobile apps.

Produce fully customised labels or ribbons quickly by choosing from a wide variety of tape cassettes available in many colours, sizes and finishes which give business a professional image.

Design and print labels direct from a computer or smartphone

The beauty of Brother's P-touch Cube Pro label printer is its ability to work according to the specific requirement.

Create labels on a desktop computer with Brother's P-touch Editor on PC or Macintosh* with virtually unlimited design options including text, images, frames and barcodes. Data in Microsoft* Excel* could be link, merge and print many labels at once.

For the ultimate convenience of connecting wirelessly from a smartphone or tablet, use Bluetooth* wireless connection and Brother's P-touch Design&Print 2 app for a simple, elegant labelling with many pre-designed templates available.

For a full customisation of labels, Brother's iPrint&Label app can be use to add text and images, change fonts and resize objects.

Easily create barcodes or QR codes for customers or staff to scan on their mobile devices to link them to the website or other important information.

Key Features

- Print on durable TZe laminated labels in many colours and patterns from 3.5mm up to 36mm in width.
- Create luxurious satin ribbons with personalised messages to attach to gifts and give customers a lasting impression of your company.
- Print via Bluetooth® wireless connecton from a Smartphone, tablet, PC or Macintosh® using the free desktop, iOS® and Android™ apps.
- Print and recharge at the same time from a computer using USB connection.
- Advanced label cutter allows the printing of multiple labels joined together in a long strip which keep them in the correct order and with easy to peel feature.

* Supports only Windows* version of P-touch Editor

Versatile Label Printer

P-touch Cube Pro label printer uses TZe tape cassettes, which provides an unrivalled range of choices when it comes to identification needs.

Whether it is use in an office or retail, education or healthcare, hospitality or logistics, skilled trades and more, there are many applications for our consumables.

A variety of tapes option

- Standard labels with various ink and background colour combinations including transparent label for shop door signage.
- Strong adhesive labels for long term durable labelling on indoors or outside.
- Premium labels with gold and silver glitter backgrounds which is ideal for staff name badges or hotel signage.
- Matt tapes with a non-reflective surface which give a high quality finish.
- Patterned background labels including silver lace, gold geometric, red and white gingham.
- Pastel labels for a more subtle label.
- Metallic silver labels for shelving and signage.
- Tamper evident security labels that cannot be reapplied once removed which is ideal for asset marking.
- Highly visible fluorescent labels for important notices.
- Flexible ID labels for cable identification.
- Iron-on or wash-proof labels for identifying staff uniform or children's clothing.
