# Why use the Brother PocketJet 7?

The PocketJet 7 is the ultimate A4 portable print solution. At just 25.5cm wide and weighing only 480g, the PocketJet 7 fits easily into a briefcase or computer bag and can be effortlessly mounted in vehicles or other work areas.

Due to its advanced thermal technology, you can now print in any environment without having to deal with inks and toners, making it the best portable print solution on the market. And, because the PocketJet 7 prints in A4, it's ideal for printing documents onsite where more detailed information is required, such as invoices, service reports and delivery notes.

So give your mobile workforce an advantage over the competition with the PocketJet 7, the latest and greatest in portable printers.

A range of power options to choose from including the standard Li-Ion rechargeable battery, AC adaptors and vehicle power kits.

Durable, rugged and dependable, the new 1.2m drop protection (IP54 rated) roll case has been designed for PocketJet's reliable printing in the most hardy conditions.

Direct thermal printing is the most reliable technology for mobile printing, letting you print in any environment.

Connect wirelessly or via MFi Bluetooth to your Apple®, Android or Windows devices using Airprint™, Google Cloud Print, Mopria™, iPrint&Scan and Brother Print Service aps*

Its compact and lightweight design makes it ideal for your employees out in the field.

Use either A4 cut sheet paper** or perforated paper rolls – simply tear the paper once printed

*Wi-Fi/MFi Bluetooth models only  ** Standard 3 Year Archive Life paper options available

# The Brother PocketJet 7 in action

Used in a wide range of applications across a variety of industries, the Brother PocketJet 7 is utilised to achieve greater business productivity and a continuous workflow.

### Mobile Sales Teams
Busy sales professionals can now print documents at their client's premises, increasing productivity that results in more time to visit other clients.

Applications Include:
• Invoices
• Quotes
• Financial plans
• Contracts

### Mobile Service Teams
Service teams, including mobile engineers, can now leave hard copies of documents at the job just completed, increasing efficiency, accuracy while adhering to legislation requirements.

Applications Include:
• Invoices
• Service reports
• Maintenance reports
• Replacement part orders

### Logistics / Deliveries
Drivers can now print from their vehicle or from the customer's premises, increasing productivity every day.

Applications Include:
• Invoices
• Delivery notes
• Order sheets
• Stock taking data

### Public Safety/Emergency Services
With the ability to print on-the-go, those who work in this industry can avoid clerical errors as well as unnecessary paperwork once back in the office.

Applications Include:
• Citations/Fines
• Patient reports
• Incident reports
• Warning notes

### Healthcare Professionals
Home healthcare workers can now print documents onsite. This helps them avoid delays in distributing care plans and instructions whilst minimising errors by avoiding handwritten documents.

Applications Include:
• Medication lists
• Care plans
• Teaching guides
• Status reports
• Contracts and waivers

### Pest Management Services
Pest Control team members can now print documents in small crawl spaces and in extreme conditions. This reduces downtime and errors and increases the overall efficacy of the business.

Applications Include:
• Log book binder reports
• Inspection reports
• Rodent bait station locations
• Compliance documents
• Guarantees
• Certificates
