#### Graphic display

Preview before printing

#### Design creative labels

Using the "Deco Mode" feature

#### 1093 symbols

Emphasise your message

## Organise your office with the P-touch D200HK

Clearly labelled items make for a much more efficient workplace. The compact design and easy-to-use features means that labels for CD cases, filing folders, shelving, staff/visitor name badges and many other items, are easily and quickly created. The availability of a wide variety of tape cassettes in various widths and colours, makes the P-touch D200HK indispensable.

\* Optional accessory

## P-touch laminated labels – designed to last

Brother P-touch laminated TZe tapes consist of seven layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET (polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight.

As the labels have been tested to the extreme, you can be confident of a professional quality label that has been designed to last.
